

FIRST AID

CLEAN, SAFE, AND LOOKING GREAT.

YOU HAVE ENOUGH TO WORRY ABOUT.

Let us take care of your first aid and safety.

+++++

VISIBILITY

Our RED cabinets get noticed! 51% of employees don't know where their first aid cabinet is. In the event of an emergency, this is vital.

SAFETY

Keeping anyone that enters your facility (employees, vendors, customers) safe is top priority for all businesses. Partnering with industry experts ensures you are prepared and protected.

PRODUCTIVITY

Sure, you could have someone on your team responsible for making sure you have first aid supplies that are stocked, not expired, and fill the cabinets. As your safety solutions expert, we can take this project off the never-ending to do list. Get time back in your day by delegating this task.

RISK MITIGATION

Aside from the federal/state/industry regulations you have to follow, you also need to protect your business from a loss of productivity and the direct cost of not being in compliance.

CONVENIENCE

Your number one priority is effectively running your business. The hassle of managing inventory or juggling multiple vendors requires time and energy: outsourcing that to Wildman means you have more time to focus on your priorities.

SAFETY IN THE WORKPLACE

2.7 MILLION

In one calendar year, 2.7 million nonfatal workplace injuries and illnesses were reported by private industry employers.

\$171 BILLION

\$171 billion was the total cost of work injuries within a one year time-frame..

 **7** SECONDS

Every 7 seconds, a team member is injured on the job.

\$1 BILLION PER WEEK

It's been estimated employers pay almost \$1 billion per week for direct workers' compensation costs alone.

COMPLETE FIRST AID CABINET

Keeping up with your on-site first aid and safety supplies is time consuming. Wildman's safety experts help you get time back in your day by managing your program for you. You get the confidence of knowing your team is properly protected at all times.

FIRST AID CABINET

- Red cabinet stands out making it easy for employees to find

BLOOD BORNE PATHOGEN KIT

- Contains solidifier, disinfectant wipe, and antimicrobial wipe.
- All kit components are disposable.

BANDAGES

- Includes a variety of sizes.
- Standard, Hi-Vis metal-detectable, and waterproof bandages.

THE WILDMAN PROCESS

1

Wildman starts by installing your easily recognizable RED cabinet.

51% of employees don't know where their first aid cabinet or AED is in their facility. Our RED first aid cabinets stand out and help employees recognize their location, whether in an emergency or not.

2

Based on your needs and cabinet quantity, your dedicated Wildman Route Service Representative will regularly visit your facility. Wildman is the safety expert. We eliminate you having to track inventory on multiple first aid supplies and cabinets.

3

We record inventory usage and report items that need replenishing.

No more running to the store to buy your own products or worrying about having enough supplies to cover your whole team. We will consistently service your first aid based on your needs.

4

After restocking and removing expired products, your cabinet will be organized and disinfected. With each visit, we disinfect the cabinet and remove expired products, so your first aid cabinet will always be safe and ready to go at a moment's notice.

5

Your Wildman Route Service Representative will finish the visit by reviewing the replenished products with you and discussing any additional needs. We audit your unique safety station needs and manage the first aid service for you, keeping your team safe and your company compliant. And we'll never 'stuff' your cabinets with things you don't need.

FIRST AID SOLUTIONS

When a medical emergency or accident occurs, having a comprehensive first aid solution can limit the severity of an injury or even save a life.

ANYONE. ANY TIME. ANYWHERE.

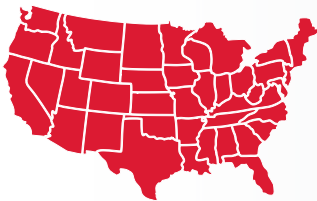

Sudden cardiac arrest events can be fatal if not handled immediately: a victim's survival rate drops 10% for every minute that defibrillation does not occur, and the average response time from first responders is 8-12 minutes.

Cardiac arrest can happen to anyone at any time. Wildman provides the solutions to help you prevent serious injuries or death.

 **90%**

Every year in the US, over 356,000 out-of-hospital sudden cardiac arrest incidents take place, with a staggering 90% resulting in fatalities.

Good Samaritan laws are implemented in every state to protect bystanders who use an AED to revive victims of sudden cardiac arrest (SCA).

 **2** MINUTES

When CPR and an AED are applied within the initial two minutes of a cardiac event, the likelihood of survival rises by 90%.

EYEWASH STATION SERVICE

Provide safety and peace of mind with intuitive and gravity-operated eyewash stations.

2K

Approximately 2,000 workers in the United States, every day, experience an on-the-job eye injury needing medical attention.

30%

Merely 30% of Environmental Health and Safety Professionals are “extremely confident” in their eyewash station’s ability to function properly in an emergency.

\$300 MILLION

Eye injuries alone result in over \$300 million per year in lost production time, medical expenses, and worker compensation.

EMERGENCY EYEWASH STATIONS:

Eyewash stations can often be overlooked until a crisis occurs. With a regular eyewash service, you can ensure your stations are always ready to respond in an emergency. No matter the type of eyewash station, Wildman provides the service you need to be confident your products will work in an emergency.

TYPES OF EYEWASH STATIONS

Self-contained units:

- + 15 minute flow
- + Often placed near forklift charging stations, tooling equipment, chemicals, or machinery

Supplemental eyewash bottles:

- + One time use
- + Commonly found within first aid cabinet or in wall mounted holders

Plumbed eyewash stations:

- + Built directly into a building's water source
- + Require weekly activation and annual inspection

WHY WILDMAN?

- + Family and locally owned since 1952
- + Professionally trained Route Service Representatives with tenure averaging 10-plus years
- + Wildman offers a customizable program to meet the needs of your business
- + Price List Transparency- You know the price you pay and the quantity you are receiving
- + Set fill list – No stuffing of cabinets and no surprise items
- + Invoices are broken down by cabinet to allow EHS to analyze proper PPE needed, where the product is being used by the department, and what spend is.
- + Competitive pricing and expansive proprietary product line through Wildman's Provision Medical First Aid line
- + Industry leading first aid cabinets; red cabinets stand out
- + Ease and speed of the onboarding transition. We take on the work so you don't have to while keeping you informed every step of the way.
